

January 29, 2026: On the Problem Presents Itself Again As Soon As I am Awake

Now, after last night's Trump-fueled harassment using criminals - both lay and cop - I awake to the exact same harassment routine first thing in the morning.

Literally the first sounds that I hear are the same as the last sounds I hear in the middle of the night.

Donald Trump has lost the battle of ideas and has resorted to simply out-shouting, out-bothering, and out-harming his perceived opponents.

The old man has simply lost his sanity. For whatever reason, this information upsets him.

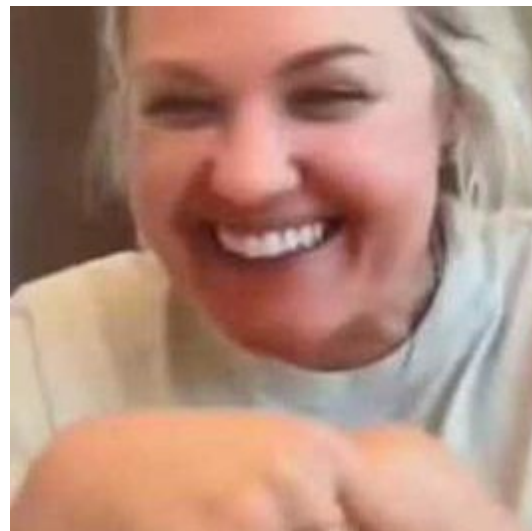

Personally, I am certain that it upsets him because **it shows what a stupid failure he has been in his life and how hopelessly far from 'wisdom' he really is.**

Hence, simply shouting louder and driving more agitation into his targets' lives than he feels is driven into his by his perception of our wisdom.

Fuck you, Donald Trump. Since you are so caught up in your receipt of awards and recognition for your efforts, I have just the one for you.

Donald Trump, I award you with the lifetime achievement award for Greatest Failure While Having the Most Potential to Succeed. Donald Chump, YOU ARE THE BIGGEST LOSER! CONGRATULATIONS!

(Try to be happier than Erika Kirk is about her new promotion - bet you can't!)

RIP Charlie, your supporting cast were a bunch of traitors - just like our government leaders.

(For the record, Elon's technology causes my wife to sneeze at the exact moment that I finished writing that last sentence. Yes, cars, air horns, air conditioners, and sneezing are the 'weapons of choice' for political discourse in modern America. Thanks USA military! You are our he . . - ERRR. . . ZE - ROS. FUCK YOU ALL.)
